

Sharon's Bean Salad

1 can each:

- Northern beans
- Chick peas
- Black beans
- Kidney beans
- Corn
- Green beans or Wax beans or both

(You can use any type or combo of beans that you like. Simply open cans and add together in a big bowl)

1 red pepper

1 yellow pepper

Celery

(Chop above into small pieces, add to bean mixture)

½ cup cider vinegar

½ cup oil

1 cup sugar

(Add above together in saucepan and heat up until the sugar is dissolved. LET COOL, and then add to bean mixture)

This bean salad actually tastes better the next day and the day after that. Be sure to make it at least the day before you need it.
